

Figfour development timeline : 2004 - 2010

Designed by Pete Dollman

2004

2004 Figfour is born!
From humble rope and tape beginnings

July '08
Figfour exhibited at 'New Designers' exhibition, London

6th May '09
Figfour wins Innovation Award Innov_Ex conference 2009

16th Aug '09 - Drylce II
Hard Rock Fest, South Molton

17th Nov '09 - Drylce IV
The Edge - Sheffield

Figfour problem featured in Scottish Tooling Series Final Round - Ice Factor

11th Dec '09 - Drylce VI
Nottingham Climbing Centre

Jan - April 2010
Production and final safety testing.

2010 LAUNCH

Early prototypes

2006 - 2008
Pete develops Figfour at University

June '09
Drylce prototype batch produced

30th Oct '09 - Drylce III
Alter Rock, Derby

28 July '09 - Drylce I
Tout a Blocs, France

Jan 2010 - Drylce VII
ICE Fest 2010
Argentierre La Bessee

3rd Dec '09 - Drylce V
Undercover Rock, Bristol

15th Aug '08
Pete joins Alpkit

Figfour is a specialized training aid for mixed climbing and dry tooling. Designed to allow climbers to accurately replicate the actions of mixed climbing indoors, without damaging the resin holds or base panels of existing climbing surfaces with the sharp picks found on traditional ice axes. The design allows climbers to train for dry tooling at their local wall.
